There are laws of physics that many aren't aware of. Science hasn't even come to an explanation. Regardless, these laws of physics are omnipotent present and working. In anything, in anybody. One of these great and strong laws.....

95% 4% 1%

Every individual has talents. One discovers it quite early in life, others apparently can't even find theirs in an entire lifetime. Yet, many seem they have ways to 'see' or 'assess' what kind of talent the other has.

### **The odd thing?**

**95%** of the people are 'happy' in some sort of way around their age 27 to 30. Where one is labelled adult, before that age one only still is walking around, seeking, trying, failing, getting up finally succeeding a little.

**4%** have a natural clear Talent into a certain direction in life they are pursuing. In their immediate slipstream many coming of that 95% want to be associated with these **4%**. Clamping and clinging to the ways of life and manners these **4%** pose and live. Others of that 95% are fan or really granting these **4%** their successes. Then there always will be those opportunists of commercial spirit wanting to make money out of the successes of these **4%**, in any thinkable (commercial) way.

### **The 1%**

**The 1%-ers**, Steven Jobs, Eckart Wintzens, Michael Schumachers, Mother Therasas, Babe Ruths, Nelson Mandelas, Johan Cruijffs, Michael Jacksons, Sir Richard Bransons, Max Verstappens .....

These are above the 96% and many are trying to find what it is that made them what they are. Charismatic, Above All, Barely Untouchable. Is spirit of time an essence? Do they have followed a certain course or path in life? Libraries are filled about these **1%**. From any thinkable angle. The bottom line however, is less complicated, incomprehensible, compared to all those schemes, formulas, theories or sole commercial driven methods.

It is fairly easy to find out why and how someone finally comes to their own **1%** category.

Much has been said, written, ridiculed, thought, printed about him. This time Donald Trump went for the highest thinkable in the United States, the Presidency, and he got it. As President Elect, he will be the President of the United States. Here at **NumoQuest®™** we are able to explain who Donald is and why he does the way he does it.

## **Natural Born DNA**

From the moment you reader, are born, you receive the natural bases and talent. That bases and talent, is what you will use the rest of your productive life. Some of the talents will be quite obvious, others will more act in the background, never the less bare impact on everything you see, feel, experience, set yourself as goal to do.

The biggest talents in the world have similar common denominators. They accept and use their natural born DNA without questioning, without reserve, without hesitation. They have such strong DNA natural born character that external influences barely show to have any significant impact. All they do is follow the path they KNOW their talent(s) are best and strongest, without questioning.

And soon they experience the benefits that such path and conduct is bringing. These universal laws of physics are exact the same for you, dear reader, as they are for the biggest and famous names you can come up with. The only difference? Your individual natural born DNA.

## **Donald Trump**

### **Primary Personal Characteristics**

In natural Essence he loves Liberty, free ways to go, think and act. He is a true believer that anything is possible, downside also may be.... At any cost? Donald longs for dynamics, being different, changes, loves travels, has a broad mind and personal and mental development and life's experience. To many he seems shallow, manipulative and fast distracted. Only few true insiders know he has a fast and intuitive mind. He also by nature has a broad curiosity and sense for adventure. Last is simply his choice in which direction he has developed it.

### **Secondary Personal Characteristics**

Donalds Secondary Characteristics are in the fields of Analyse, specialized in certain fields, need documented proof before anything to base his opinion and next step or decision upon. He is a natural leader, has his own idea and vision on spirituality, regardless what that is to a man as Donald Trump. He is intuitive in many ways and has a great natural perseverance. Against all odds, may be tattooed in his soul somewhere.

A clear element here is that when he decides, he has looked ad perspectives from many different direction and angle. It may take a while before he decides. Once he decides he will go for it whole hearted.

## Soft Skills

Natural Born Soft skills provide a 3D insight in the personality. The mental constitution is somewhat stronger than the emotion. This is a clear indicator of a clear thinking mind where decisions are taken on solid and clear explicable ground.

## Mental

He has a sharp and fast mental side, is able to absorb information fast and bases step and decision on solid science and proof. He is lesser of an image thinker yet consequent.

## Emotional

In spite of what many think he has emotion yet in the ways he has walked emotion is something not to be shown or used. Never the less he has. Donald by nature is stronger mentally where decisions and steps are made and set based upon fact and mental inside rather than emotion. Emotion however is a clear part of it.

## Intuition

There are only few ways to establish if intuition is there and what influence this has on the overall personality. Donald has a natural gift for intuition, knows and understands that and uses it in whatever step, plan or direction he is going. Although he understands and is intrigued by it, in general and public he will not talk about this aspect.

## Physical

Physique is a major component in his life by nature. If the body and mind aren't healthy, things will go wrong. He will keep a healthy eye to his personal health and physique. He is demanding to himself and others and knows this is a very important part of any ones personality and character.

## Business/Entrepreneurship

Because of his strong natural latency of perseverance Donald has found a 'way' working best to him and explored and pursuit that road to great success. It has become a major part of his personality and the way he sees life for himself and those in endeavour. It brings a certain personality and ways of conduct and here he is not sole demanding to him selves, also to others .

## Perseverance

Perseverance isn't sole a part of his Secondary Characteristics, it also is a natural latency is his soft skill that strengthen this element in the overall personality. It makes this specific part in Donald Trump a fanatic in the way he looks and acts to many. The only thing here many don't understand is the desire to prove that, the way and manner of Donald Trump, is the right way. Here the element 'against all odds' can be his life's rule.

## **Flexibility**

Donald Trump has an inquisitive and very flexible personality. It brings a great strength to be able to cope with change. Not sole that. He will show great natural resilience and natural adaption to the changes circomstances and life so often may bring. This natural born flexibility also brings the attitude, 'so now you have said it, good, move on.....'

Donald will take defeat or not so successful as a fact of life. A moment of learning and not something to be pointed at a lifetime.

## **Inspiring/Inspiration**

He has a great way of inspiring himself and others. One may not agree with him, what he says will make sense from his personal and natural perspective. He will show and use what has been working to and for him and basically forget that these ways not always will work for others.

Understanding that aspect however, he refuses to accept mediocracy and will push people to go beyond and above them to succeed. If they don't want to or seem unable to, he show to have a short fuse and move on. Either you are keeping up or step aside.

## **Communication**

In his personal way he has a way with communication. Many with other experiences or ways of communication may find it difficult or even an unwelcome way of communication. Having said that the ways of communication often seem crude yet clear and brief. Here he will show that there isn't always time and way for broad deliberation where it often can be simple and concise. He will demonstrate it can.

## **Empathetic**

Though he has the appearance of the cold shark like personification of business, Donald has a fait natural latency of empathy. He does see and understand people in the emotional way but to him, in his perception and experience, having the latency empathy to be the big ruler or decider in business, isn't a good option. Often decision and business are beyond person and personal circumstance, an aspect so often forgotten by many.

## **Personal and independence**

Donald is a great believer of personal independence and liberty to do and go the way any one desires personally. Here he is a great self-starter, not the follower or 'waiter' for others to lead ways or endeavour. This also is a strong natural latency having a key role in the personality of Donald Trump.
